History of Florida Coach

Florida Coach proudly Celebrates its 37th Anniversary. Jack Calhoun began building Tour Coaches out of a love for music and the desire to provide touring artists with a level of comfort, style, and reliability that was unavailable at that time. His vision and clientele began with a few of Country Music's Legends and has now transformed into a state of the art fleet of 50 luxury coaches. Florida Coach is still owned by Jack and is now headed by his son, Caleb Calhoun.

Located in Kissimmee, Florida the business sets on a seven-acre estate and encompasses a team of seventy highly skilled artisans, engineers, drivers and family. With the artistry and expertise, Florida Coach has proudly introduced roomier floor plans and features that other companies are still trying to implement. Also with the introduction of a brand new fleet of Prevost X3's, Florida Coach remains a leader and innovator in the Tour Coach industry. Every coach is designed to embrace the ambiance of being your luxury home away from home.

Our commitment to our coaches is evident in the ever-growing list of repeat clients. Come visit our facility and you will not only feel the pride and passion we have for our coaches but you will feel like family. Florida Coach is one of the few Tour Coach companies that are Owner Operated. We take pride in knowing each of our clients, you call, and we personally answer. After 37 years, Florida Coach is continuing to set the standards by which others are judged into the new millennium.
