# A LETTER FROM THE PRESIDENT

---

It's official, we've pulled off yet another successful open house, and we've got the pictures to prove it! After many months of preparations, which involved things like all the "required" food samplings (which admittedly can hardly be called work), numerous viewings of potential entertainment options, interviews with venue staff, and lots of planning meetings, the 2015 Millennium open house came together as planned, and was a success. How do we measure success? It's not about the coaches sold (by the way, we sold some coaches), how many people attended, (although we did have a pretty large crowd), or if the weather cooperated, (which thankfully it did). No, it's measured by the smiles on our friends faces, which, when it comes down to it, is the only thing that really matters. You can see some of those smiles yourself on pages 4 & 5.

The annual open house serves many purposes. The reason I most look forward to the event is that it gives me an opportunity to visit with my extended Family. It's like a big family reunion, along with the crazy uncle

and all else that comes with it. This time together is important to me because it gives me an opportunity to find out how our customers are doing, get their ideas and suggestions for future coaches, (which boy do you have them) and to hear stories of their latest adventures on the road. Catching up with so many of them, along with lots of dancing, plenty of eating and even some singing by yours truly, helped to make this open house one of the most enjoyable weeks of the year.

For those of you in attendance, you already experienced this first hand, but for everyone else, News Flash, I can't sing! But the singing that I did came from the bottom of my heart and that's all that matters. So just imagine when you actually do something really well and on top of that you do it from the bottom of your heart. Well that's what we do with all things coaches. We build them, we sell them, and we service them, all for the best group of people in the world, our customers, and we do it from the bottom of our heart.

One of the most common comments I heard at the open house was how much our people care. While that's always great to hear, it came as no surprise. Our people genuinely do care for the well-being and

satisfaction of our customers. I couldn't be prouder of our team; from Sales, Admin, Managers and Marketing, to Paint & Body, Service, Building maintenance, and of course Production, everyone did their part, and did it well.

Be assured that the Millennium team is on your side, every step of the way. It doesn't matter if you're in our campground or in California, we will be there for you. It was great having so many of you come together to join us for the open house, but as you make your separate ways back home, and for all the rest of our Millennium family around the country, know that regardless of where you are, we'll be there for you.

Here to Serve!

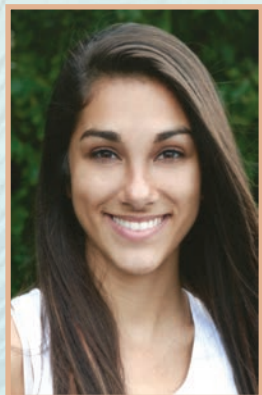

*Nelson*

# WEST COAST... BEST COAST!

## Letters to home

Alex Figueroa

Dear Millennium Family,

Don't worry guys! I haven't been converted to a granola munching barefoot hippie just yet (although I did just buy my first pair of funky pants), however I do have to admit California came with a few west coast adjustments I hadn't anticipated. From the hills and mountains that we obviously don't have in Florida, to the frigid waters of the west coast beaches, and the homeless looking millionaires of Malibu, there has definitely been a lot to get used to.

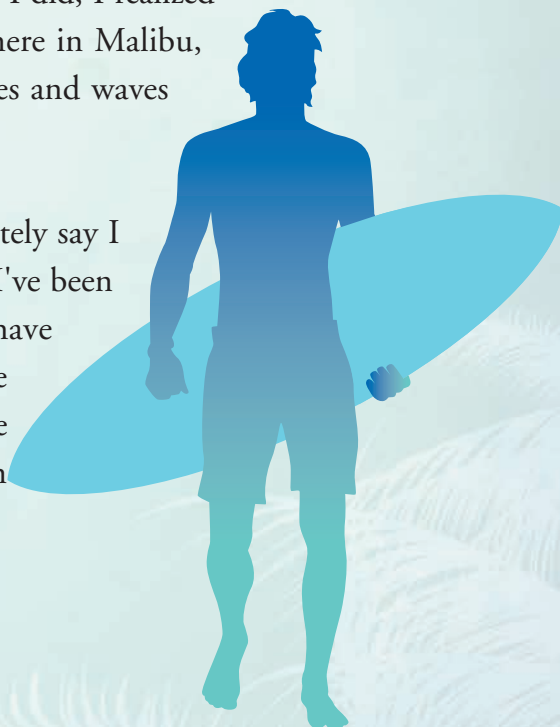

Since I'm sure you've all heard the stereotypes that are associated with the small SoCal city of Malibu, I'll go ahead and tell you, a lot of them are true! I have seen the Jenner's playing Frisbee on the grassy field in front of my dorm, and Owen Wilson in his pajamas grocery shopping. I've even been late to my dinner reservation because they had to shut down LA streets for the president, thanks a lot Obama! I frequently hear surfer lingo around campus, and you might even catch me using a few "Cowabunga's" if you're around Millennium this summer since I've been catching a few waves myself. Pepperdine even offers a couple surfing classes for credit towards graduation!

And of course there is the actual academics of college to adjust to, details, details, right? Pepperdine is known for its academic rigor and high standards. I was shocked at first at how smart everyone was. In high school I was used to being the smartest kid in my class, but at Pepperdine, everyone had been the smartest kid in their class. It took me a while before I realized I had to actually hit the books, but once I did, I realized how much I loved my classes, and my major! Learning is exciting here in Malibu, especially when you can study for math with sand between your toes and waves crashing ten feet away.

Even though it's been a lot to take in quickly, one thing I can definitely say I have missed is working with Millennium. I have had two jobs since I've been at school, and at both my managers were shocked at how well I have developed my customer service skills, something I learned while working at Millennium for so long. My Millennium family taught me the right way to do business and I hope I will continue to learn from all of you, even from across the country!

Lots of Love,

*Alex*

# 2015 STARTED OFF STRONG AND IT'S ONLY GOTTEN BETTER.

Millennium kicked off the New Year with a bang! It all started with the 2015 Florida RV SuperShow in Tampa, which garnered a huge response from Millennium fans across the country. Crowds of guests gathered around to see our coach displays, and the 110" widescreen video wall, complete with invisible speakers was particularly popular.

However, the excitement didn't end there. By the time the show was over we had pre-sold the very

first 2017 model year coach, which is also scheduled to be our flagship coach for the 2016 Super Show. Our custom build success continues with only 4 of the 14 scheduled models for the 2016 year still available for purchase.

Our first quarter excitement, continued with our highly successful annual Open House, which not only resulted in tons of friends and fun, but also an additional pre-sold 2017 model year coach.

So much success this early in the year is truly an honor, as it speaks to the loyalty of our customers, not only to our product, but to our amazing team as well... and we cannot wait to see where the rest of 2015 takes us!

Greetings  
from

# SAVANNAH, GA.

Anyone who has known me for very long refers to me as an old soul. I often joke with people that I feel like I was born in the wrong decade... or century for that matter. This comes from my love of the historic. I often look back at antique fashions and wish for the days of giant bustles and corseted waistlines that rival that of Scarlett O' Hara's. Even though these days were before my time, I still have a passion for these days of old and discovering historic destinations that may give me a glimpse into the past.

So among my travels I was thrilled to find a quaint historic city, which seemed to allow me

to step back in time. My portal to the good ol' days led me to Savannah, Georgia. The beauty of this untouched city truly astounded me, from the historic homes to the sprawling oak trees hundreds of years old. I took in all of the sights (and foods) of this wonderful city. I even enjoyed a walking tour of all the city's "haunted" sites, which is all fun and games until your hotel is featured.

The historic district of Savannah, centered around the stunning Forsyth Park, offers a variety of must-stop destinations. Travelers can enjoy a little taste of the south with the many eateries serving southern comfort food,

take in a historic walking tour, or walk the squares, with some of the most amazing antique stores you will ever find.

So if you are a history buff like me or just enjoy a quiet retreat from the hustle and bustle of modern life, be sure to add Savannah to your travel bucket list and enjoy stepping back in time to this slice of historic heaven.

# Springtime Soiree

## RECIPES

### SLOW COOKER BUFFALO CHICKEN LETTUCE WRAPS

#### Ingredients:

- 3 large boneless, skinless chicken breasts
- 3 celery stalks
- 1 onion, diced
- 1 clove garlic
- 16 ounces low sodium chicken broth
- ½ cup hot wing sauce
- Large lettuce leaves (Bibb or Iceberg)
- 1½ cups shredded carrots
- Blue cheese, for serving
- Ranch dressing, for serving

**Directions:** Combine the chicken, onions, celery stalk (1), garlic, and broth in a slow cooker. Cover and cook on high for 4 hours or on low for 8 hours. Remove the chicken from the pot, reserve 1/2 cup broth, and discard the rest. Shred the chicken with 2 forks, return to the slow cooker with the reserved broth and the hot sauce. Cook on high for an additional 30 minutes. Serve chicken on lettuce cups, topped with buffalo chicken, shredded carrots, chopped celery, blue cheese, and ranch dressing, if desired.

## A PITCHER OF STRAWBERRY GIN SMASH

*Serves 8*

### Ingredients:

2 tablespoons sugar  
 2 limes, juiced, about 4 tablespoons  
 1 pound fresh strawberries  
 1½ cups gin  
 3 cups club soda  
 Fresh mint sprigs, to garnish

**Make-Ahead Note:** You can make this ahead; mix everything except the club soda and ice, then refrigerate overnight. A night in the fridge will also help the strawberries add more flavor and color to the drink.

### Directions:

Muddle the sugar and limes in a pitcher that holds at least 8 cups (64 ounces). Set aside 6 to 8 small strawberries and make a small slice in their tips. Hull and slice the remaining strawberries and muddle the slices lightly with the sugar and lime juice. Stir in the gin and club soda and pack the pitcher full of ice. Add mint sprigs to garnish. Pour into ice-filled glasses and garnish with a strawberry, slotted onto the edge of the glass.

## DARK CHOCOLATE RASPBERRY CUPCAKES

*These dark chocolate cupcakes are topped with a whipped raspberry vanilla crème frosting that's out of this world!*

### Ingredients:

1 box Duncan Hines dark chocolate fudge cake mix  
 1, 3.9 oz box of instant dark chocolate pudding mix  
 4 eggs  
 1 cup sour cream  
 ¾ cup vegetable oil  
 ½ cup milk  
 1 tablespoon vanilla extract  
 ¼ teaspoon sea salt  
 1½ cup mini semi-sweet chocolate chips

### Frosting

2 cups heavy cream  
 ⅓ cup instant vanilla pudding powder  
 1, 1.2 oz package of freeze-dried raspberries  
 ½ cup confectioners' sugar

### Directions:

For the cupcakes, begin with preheating the oven to 375 degrees F and line cupcake pan for easy clean up. Combine all ingredients in a stand mixer and beat until combined. Fill cupcake liners ½ – ¾ full. Reduce heat to 325 degrees F. Bake for 18-22 minutes until toothpick comes out clean. Remove from oven and transfer cupcakes to cooling racks to finish cooling.

Next, for the frosting add freeze-dried raspberries to a food processor and blend until you have a fine dust. Combine all ingredients in a stand mixer or large bowl and whip until frosting is light and fluffy. Use a bag to pipe frosting on cooled cupcakes. Serve immediately for best taste.
