Prevost Era Begins

Engineering 'Firsts'

Beginning in 1978, our partnership with Prevost Car opened the door to a new era of engineering breakthroughs from Liberty Coach:

- **1979: First hot water heating system**
- **1981: First generator air bag suspension**
- **1984: First automatic leveling system**
- **1984: First generator auto start system**
- **1989: CAD/CAM technology**

**Computer-Controlled
Electrical Architecture**

An Electrical Evolution

Liberty's introduction of computer-controlled electrical architecture paved the way for exciting developments in electrical and electronic capabilities.

- **1993: Programmable Logic introduced**
- **1995: First touch screen control capabilities**

Crestron Control System

The Crestron Revolution

Our introduction of the Crestron Remote Control System in 2002 sparked a total transformation in motorcoach control technology.

- **2002: First Crestron installation**
- **2008: Crestron Innovative Design Award**
- **2012: Crestron C3 Processor introduced**

The Liberty Coach logo is displayed in a dark grey, rounded rectangular frame. The word "LIBERTY" is written in a bold, uppercase, sans-serif font at the top. Below it, the word "Coach" is written in a classic, cursive script font, followed by a registered trademark symbol (®).

**Lithium Ion
Battery System**

A First for the Industry

In 2010, Liberty became the first convertor to scrap lead acid batteries in favor of a far lighter, safer, and more powerful lithium ion phosphate battery system.

- **Weight reduction of up to 1,000 pounds**
- **Significantly greater energy capacity**
- **Enhanced generator efficiency**

The Liberty Coach logo is a dark grey, rounded rectangular badge. Inside the badge, the word "LIBERTY" is written in a bold, uppercase, sans-serif font. Below it, the word "Coach" is written in a cursive, script font with a registered trademark symbol (®) to its upper right.

**Tier 4-Certified
Lithium Ion Energy System**

Feature of the Future

Driven by the challenge to meet the EPA's Tier 4 emissions standards, Liberty teamed with Volta Power Systems to develop an energy system that redefines the future of motorcoach technology.

- **Revolutionary automotive grade Lithium NMC battery technology**
- **58-volt house electrical system**
- **Tier 4-compliant Onan generator installation**

The Liberty Coach logo is displayed in a dark grey, rounded rectangular frame. The word "LIBERTY" is written in a bold, uppercase, sans-serif font, while "Coach" is written in a cursive script font below it, with a registered trademark symbol (®) to its upper right.
